a contemporary theology of these three sacraments surveying their historical development their theology today and liturgical and pastoral implications

the seal of the spirit is an in depth investigation of the relation of the gift of the holy spirit to christian initiation this work struggles with two aspects of baptism the salvation of christ sacramentally represented and effected in baptism and the baptism in water as a preparatory rite signifying repentance and regeneration

christian initiation takes varying forms in different denominations and for many non churchgoing new parents a christening or some other kind of ceremony is important at this landmark time in their lives equally many adults seek baptism in the church of england and the ancient practice of baptism with confirmation at the easter vigil is enjoying a revival this volume the third and final volume in the creative pastoral liturgy series offers imaginative ideas and liturgies for all these and many more occasions in the life of a local church which you will not find in official service books these include blessings for a house and a new building thanksgiving liturgies for all who help to run the church services of blessing for those moving away for a student going travelling for a group going on pilgrimage for an ordinand starting training and for someone going to serve overseas as with the companion volumes on marriage and funerals this invaluable resource ensures that the authorised initiation liturgies are celebrated with imagination and creativity so that pastoral support and care is made clearly visible

drawing on research carried out as part of the baptism project and making helpful connections with popular catechetical material from sources such as pilgrim simon jones considers how where and for whom rites of christian initiation are celebrated and how baptism has been rediscovered as fundamental to the church s identity and mission very little has been written recently about the celebration of rites of christian initiation focussing primarily on the material in common worship including the new texts for baptism as well as drawing on other liturgical traditions this book fills the gap with a concise yet comprehensive treatment that takes full account of the latest needs and developments
